

 **PROTECT COMPLETE**

The background features a teal gradient with a white, curved, layered structure on the right side. Numerous reflective, metallic spheres of various sizes are scattered across the scene, some appearing to be part of a network or data flow. A thin, glowing teal line is visible in the upper right corner, and a dark, curved line is at the bottom.

Complete, multilayered protection for  
endpoints, cloud applications & email,  
the #1 threat vector

# PROTECT COMPLETE

- Management Console
- Endpoint Protection
- File Server Security
- Advanced Threat Defence
- Full Disk Encryption
- Cloud Applications Protection
- Mail Security

Add an extra layer of protection to your Microsoft 365 cloud email, collaboration and storage or mail servers. Protect your company computers, laptops and mobiles with security products all managed via a cloud or on-prem management console. The solution includes advanced threat defence technology, preventing new, never-before-seen types of threats, and full disk encryption capability for enhanced data protection.

- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Helps comply with data regulation thanks to full disk encryption capabilities on Windows and macOS.
- Protection against disruption caused by email-based attacks and malware in Microsoft 365 cloud applications.
- Protection of your mail servers from malware, spam or phishing attacks.
- Easily accessible ESET PROTECT Cloud console improves TCO of security management.
- Single-pane-of-glass remote management for visibility to threats, users and quarantined items.
- Company endpoints and mobiles are protected via advanced multilayered technology, now with brute force attack protection.

Digital security on a tight budget? ESET PROTECT Complete On-Prem\* is available with onsite deployment of the security management console.

*\*ESET Cloud Office Security is not included in on-premises solution.*

## ADVANCED THREAT DEFENCE WITH CLOUD SANDBOXING TO PREVENT RANSOMWARE

**ESET LiveGuard Advanced** provides proactive protection against new, never-before-seen threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behaviour using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Advanced unpacking & scanning
- Cutting-edge machine learning
- In-depth behavioral analysis
- Cloud sandboxing

## MULTILAYERED ENDPOINT PROTECTION INCLUDING FILE SERVER SECURITY

**ESET Endpoint Security** provides strong malware and exploit prevention and can detect malware before, during and after execution. Now it also features anti-password guessing technology.

**ESET Server Security** provides lightweight multilayered server protection, to ensure business continuity.

- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

## ADVANCED PROTECTION FOR EMAIL AND CLOUD COLLABORATION OR STORAGE

**ESET Cloud Office Security** provides advanced protection for Microsoft 365 applications by means of an easy-to-use cloud console. The combination of spam filtering, anti-malware scanning and anti-phishing helps to protect your company communication and cloud storage.

- Includes advanced threat defence capability with ultimate protection against new, never-before-seen threat types, especially ransomware.
- Visibility in detections and quarantine via anytime-accessible console.
- Automatic protection of new user mailboxes.
- Immediate notification when detection of malware occurs.

**ESET Mail Security** provides an additional layer of defence on server level to prevent spam and malware from ever reaching users' mailboxes.

## POWERFUL ENCRYPTION MANAGED NATIVELY BY ESET PROTECT

**ESET Full Disk Encryption** is a feature native to the ESET PROTECT management console. It allows one-click deployment and encryption of data on connected Windows and Mac endpoints. ESET Full Disk Encryption significantly increases your organisation's data security and helps you comply with data protection regulations.

- Manage encryption on Windows and macOS machines
- Encrypt system disks, partitions or entire drives
- Deploy, activate and encrypt devices in a single action

## REMOTE MANAGEMENT CONSOLE

**ESET PROTECT** is a cloud-based or on-prem, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and the cloud console gives you network visibility without the need to buy or maintain additional hardware, reducing total cost of ownership.

- Seamless setup and deployment
- Cloud deployment does not require additional hardware or software
- Single point of network security management
- Saves time with automated tasks

# About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services to deliver comprehensive, multilayered protection against cybersecurity threats for businesses and consumers worldwide.

ESET has long pioneered machine learning and cloud technologies that prevent, detect and respond to malware. ESET is a privately owned company that promotes scientific research and development worldwide.
