

eset PROTECT MAIL PLUS

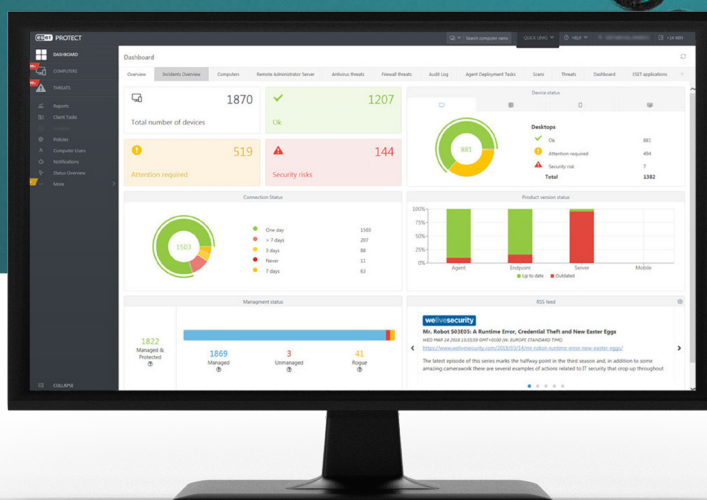

Multilayered email protection
with zero-day threat defense

eset PROTECT MAIL PLUS

- Management Console
- Mail Security
- Advanced Threat Defense

Protect your users and their email, the most exploited threat vector. ESET Mail Security solutions make users' life much easier by preventing spam from ever reaching their mailbox. The solution includes advanced threat defense technology, preventing new, never-before-seen threat types, and ransomware. Security products are all managed via a management console that can be deployed in the cloud or on-premises.

- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Protection against disruption caused by email-based attacks and malware.
- Easily accessible ESET PROTECT Cloud console improves the TCO of security management.
- Single-pane-of-glass remote management for visibility of threats, users and quarantined items.

All ESET products are managed from a Unified Endpoint Management (UEM) cloud or on-prem console, ESET PROTECT, ensuring a complete overview of your network.

ADVANCED THREAT DEFENSE WITH CLOUD SANDBOXING TO PREVENT RANSOMWARE

ESET LiveGuard Advanced provides proactive protection against new, never-before-seen threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behavior using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Advanced unpacking & scanning
- Cutting-edge machine learning
- In-depth behavioral analysis
- Cloud sandboxing

LIMIT THE ORGANIZATION'S EXPOSURE TO EMAIL-BASED ATTACKS

ESET Mail Security provides an additional layer of defense to prevent spam and malware from ever reaching users' mailboxes. The solution uses ESET's proprietary antispam, anti-phishing and host server protection technology, combining machine learning, big data and human expertise into one, award-winning mail security platform.

- Robust quarantine management
- Multilayered technology filtering spam and malware
- Anti-phishing protection

REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based or on-prem, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and the cloud console gives you network visibility without the need to buy or maintain additional hardware, reducing total cost of ownership.

- Seamless setup and deployment
- Cloud deployment does not require additional hardware or software
- Single point of network security management
- Saves time with automated tasks

About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services to deliver comprehensive, multilayered protection against cybersecurity threats for businesses and consumers worldwide.

ESET has long pioneered machine learning and cloud technologies that prevent, detect and respond to malware. ESET is a privately owned company that promotes scientific research and development worldwide.
