Packaging contents

- 1 x USB 3.0 Gigabit NIC (network interface card)
- 1 x instruction manual

System requirements

- USB-enabled computer with an available USB 3.0 port

Operating system requirements are subject to change. For the latest requirements, please visit www.startech.com/USB31000SA.

Product overview

Installation

Install the NIC

- Connect the USB 3.0 NIC to an available USB port.

If the driver for the NIC doesn't install automatically, you need to manually install the driver. For more information, see the following instructions.

Install drivers on a computer running Windows

1. If the **Found New Hardware** dialog box appears on your screen, close the dialog box or click **Cancel**.
- Note:** The NIC will load a CD-ROM device that contains an executable file that you can use to install the driver.
2. After the CD-ROM device finishes loading, run the installation file.
3. Complete the on-screen instructions to complete the installation.

Note: You can find the latest drivers at www.StarTech.com. Enter **USB31000SA** in the **Search** field, and click the **Support** tab.

Install drivers on a computer running macOS

1. To download the latest driver, navigate to www.StarTech.com and enter **USB31000SA** in the **Search** field.
2. Click the **Support** tab.
3. Download a driver.
4. When the download is complete, extract the contents of the compressed file that you downloaded.
5. Double-click the appropriate driver for the version of OS that you're running, and follow the on-screen instructions to complete the installation.

Verify that the driver was installed successfully on a computer running a version of Windows

1. Depending on the version of Windows that you're running, do one of the following:
 - If you're running a version of Windows 7, in the **Start** menu, right-click **Computer**. Click **Manage**. In the **Computer Management** window, click **Device Manager**.
 - If you're running Windows 8.1, press the **Windows** key + **X**. Click **Device Manager**.
2. Expand the **Network Adapters** section. If the driver was installed successfully, the list won't contain any exclamation or question marks next to the device.

Verify that the driver was installed successfully on a computer running a version of macOS

1. To open the **System Profiler**, click the **Apple** symbol in the top-left corner of the screen.
2. Click **About this Mac**, and then click **System Report**.
3. Expand the **Network** section. If the NIC is connected, you should see the device listed.

About LEDs

The NIC comes with two LEDs located next to the RJ45 Ethernet port and one LED located on the top of the NIC. The power LED is blue in color and remains lit up when the NIC is powered on. The LED to the left of the RJ45 Ethernet port is green in color and lights up to indicate that the NIC is connected. The LED to the right of the port is amber in color and blinks to indicate activity.

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by StarTech.com could void the user's authority to operate the equipment.

Industry Canada Statement

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.
CAN ICES-3 (B)/NMB-3(B)

Warranty Information

This product is backed by a two-year warranty.

For further information on product warranty terms and conditions, please refer to www.startech.com/warranty

Limitation of Liability

In no event shall the liability of StarTech.com Ltd. and StarTech.com USA LLP (or their officers, directors, employees or agents) for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of or related to the use of the product exceed the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.

Safety Measures

- If product has an exposed circuit board, do not touch the product under power.

Mesures de sécurité

- Si l'un des circuits imprimés du produit est visible, ne pas touchez le produit lorsqu'il est sous tension.

安全対策

- 製品に露出した状態の回路基盤が含まれる場合、電源が入っている状態で製品に触らないでください。

Misure di sicurezza

- Se il prodotto ha un circuito stampato visibile, non toccare il prodotto quando è acceso.

Säkerhetsåtgärder

- Rör aldrig vid enheter med oskyddade kretskort när strömmen är påslagen.
